Additional Options Price list (bespoke funeral options)

All funeral directors are legally required to publish the Standardised Price List for a standardised set of products and services, to help you think through your options and make choices, and to let you compare prices between different funeral directors. We understand that the 'Standardised Price List' may not include options best suited to the types of funeral services people may want to arrange, in this case we can offer more bespoke options which are listed below.

We are legally obliged to list a charge for all services the CMA has listed on the Standard Price List, however if a bespoke funeral is chosen the services listed below will be included at no extra cost:

1. Embalming/hygienic treatment of the deceased person (unless risk of infectious disease is present).
2. Visiting the deceased person in our chapel of rest (within usual working hours)[3]
3. Collection of ashes from the crematorium, storage in our office for up to three months, delivery to an address within 5 miles of our office.

In addition to these complementary services, if a bespoke option is chosen, some reductions can be made if certain services aren't required, such as an £85.00 reduction if we collect the deceased person from an address within 15 miles of our office within usual working hours (defined as Monday – Friday 9:00 – 17:00).

If you have any questions about our pricing, please do not hesitate to contact us, we are always happy to provide you with any information you may need.
